Introduction

The Plan aims at:

- The effective communication of the project results in an audience-friendly manner. For this reason, it will clearly identify the target-group of each dissemination activity.
- the stakeholders targeted per result to be exploited,
- the exploitation techniques, and
- An analysis of the fit between these results, the needs and requirements of the stakeholders, and the exploitation methods.

1. Dissemination

1.1. Definition

Erasmus + Programme Guide :

“Dissemination is a planned process of providing information on the results of programmes and initiatives to key actors. It occurs as and when the result of programmes and initiatives become available. In terms of the Erasmus+ Programme this involves spreading the word about the project successes and outcomes as far as possible. Making others aware of the project will impact on other organisations in the future and will contribute to raising the profile of the organisation carrying out the project. To effectively disseminate results, an appropriate process at the beginning of the project needs to be designed. This should cover why, what, how, when, to whom and where disseminating results will take place, both during and after the funding period.”

1.2. Aims

Dissemination will follow the project results and will be structured as follows:

- Preparation stage: a major part of the stakeholders will be reached: the Gap analysis will involve intra-institutional target groups and the Yabda Guide of Best Practices will be extensively disseminated to all major stakeholders, introducing them to the project objectives and to the excellence it seeks to achieve. The Yabda MOOC and Institutional strategies will reach potential end-users, potential funders, higher education academic, administrative and technical staff, local/regional/national policy-makers, researchers, students' unions, etc.
- Setting-up the Yabda ecosystem: dissemination will mainly address intra-institutional actors. In addition, the Yabda Train the Trainers programme, updated MOOC and Guide will be extensively disseminated at all actors at all levels. A national conference organized in each Partner University country will bring together potential end-users, entrepreneurs and companies from all sectors and levels, higher education academic, administrative and technical staff, local/regional/national policy-makers, funding organizations, researchers, NGOs, youth organizations, students' unions, etc.
- Mainstreaming the Yabda ecosystem: The Yabda Training Programme will be extensively publicised in order to ensure its sustainability after the end of the project. Infodays will be organized by all partners for the promotion of entrepreneurship learning and the sustainability of the Training Programme. They will focus on regional/local reality with the aim to involve regional officers, investors and corporates to create stronger local ecosystems. Policy-briefs will be sent to policy-makers at all levels. An international conference at the end of the project, were the Yabda award will be presented, will aim at the project sustainability.
- After the project ends: Dissemination will continue by all partners for the Yabda Guide, Training Programme, Hub and Prize to be sustained and exploited in the Maghreb region and beyond.

1.3. Target audience

Dissemination activities will mainly target the following groups:

- Key socio-economic actors, including private companies and state organizations at all levels that can contribute to the sharing experiences and best practices, mentoring, funding of innovative projects, commercialization and spin-offs.

- **Layout of the documents**

All documents (except drafts) should follow the following layout:

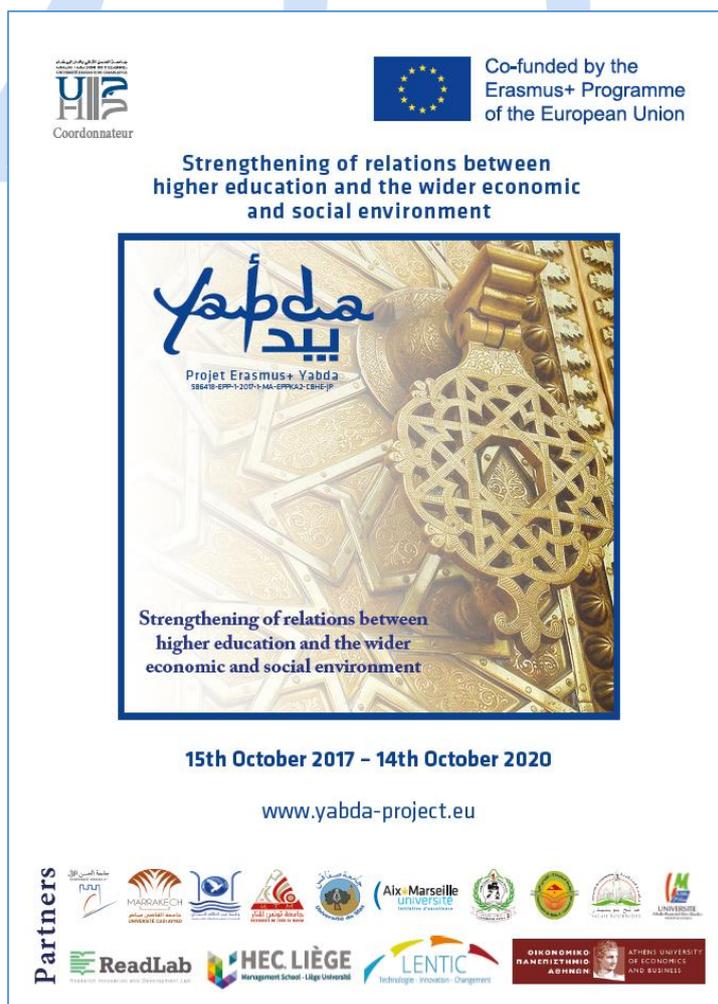

For Power Point presentations:

- Title 1 (Times New Roman font, size 32);
- Text (Times New Roman font, size18).

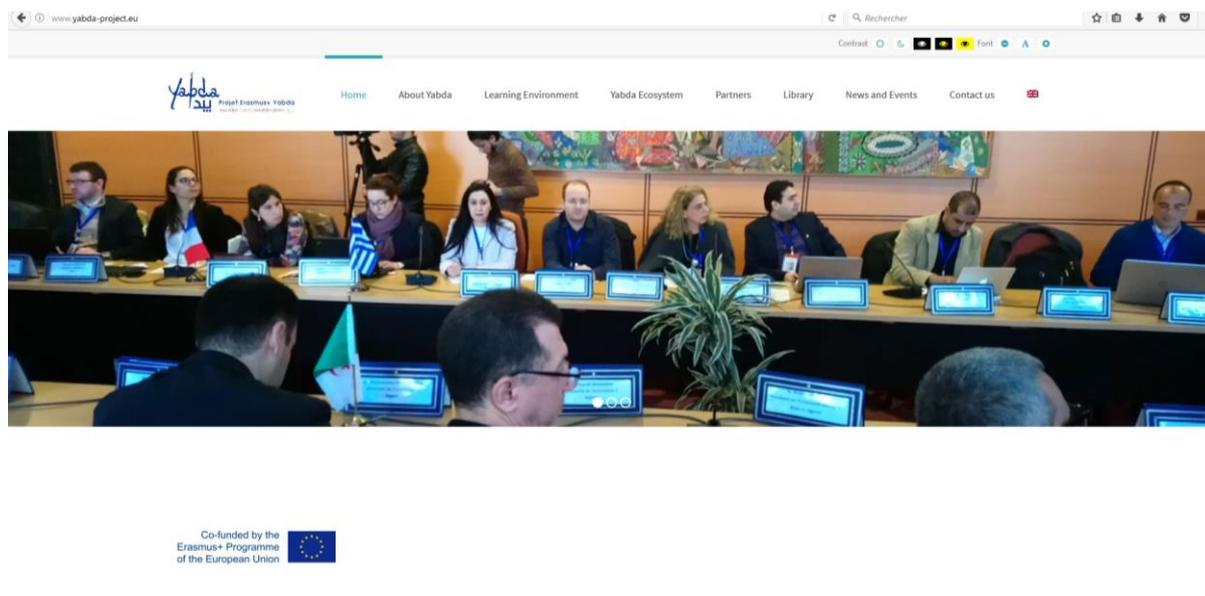

For reports:

- font: Times New Roman, size: 12;
- a cover page with the following elements:
 - the title of the document;
 - the state of the document.
- Each page will consist of the following two parts:
 - header (EACEA logo, Project logo, Coordinating University logo);
 - footer (logo of all project partners);
 - Project title ;
 - Page number.

- **Text-based information: flyers, posters, policy briefs, policy recommendations.**

- **Web-based channels:** Yabda website (including electronic news items), Yabda learning resources, Yabda Community, web 2.0 tools, web ads, Erasmus+ dissemination platform.

A website for the project has been created : <http://www.yabda-project.eu/> . In conformity to the EACEA requirements, the website shall be kept up-to-date with at least: a description of the action, the contact details of the co-ordinator, the list of beneficiaries, mention of the European Union's financial support with the relevant logo and access to the principal results, as and when they become available.

The website will provide links to the Yabda MOOC and community. It will also provide access to the Yabda learning material, including the Yabda Guide and training programmes and (see WP2 and WP3), and will present learner's experiences and activities. It will also support the Yabda virtual Community, YouTube videos and news/press releases.

Yabda website will abide by the Web Content Accessibility Guidelines (WCAG) 2.0 in order to be accessible to disabled students, teachers and other stakeholders.

- **Face to face events:** All partners will organize at least one face-to-face event with private and public organizations, and possible funders (infodays).
- **Networking and synergies with private companies and state organizations at all levels** that can contribute to the sharing experiences and best practices, mentoring, funding of innovative projects, commercialization and spin-offs.
- **Reaching all: through press releases and other material sent to the press** before and after the Yabda dissemination events and milestone deliverables.
- **Videos and/or other interactive resources** will be created in preparation on the Yabda dissemination events, presenting best entrepreneurial practices and experiences.

By the end of the project a Yabda Network of Entrepreneurial Universities will have been created, promoting university-led Entrepreneurship in Maghreb region.

2.3. USE OF THE ERASMUS+ PROJECT RESULTS PLATFORM

Erasmus + Programme Guide :

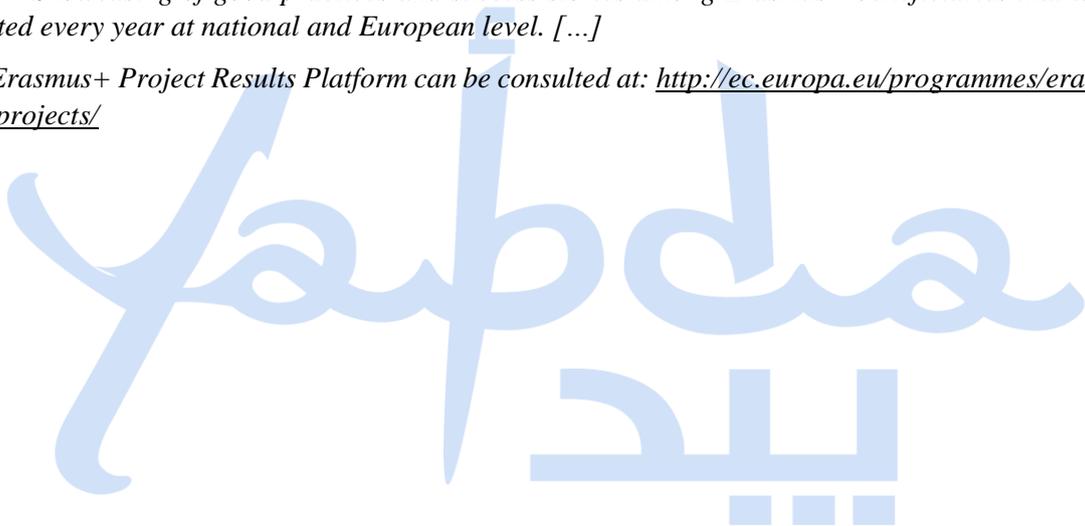

“A new platform was established for Erasmus+ to offer a comprehensive overview of projects funded under the Programme and to highlight good practice examples and success stories. The platform also makes available products/deliverables/intellectual outputs which are the result of the projects funded.

Good practices will be the object of an annual selection by each National Agency and by the Executive Agency. Success stories will be further selected at central level by DG EAC services.

The new platform serves different purposes:

- *Project database (including project summaries, URL links, etc.);*
- *database of project results giving access to end-users and practitioners to main outcomes;*
- *Showcasing of good practices and success stories among Erasmus+ beneficiaries that will be selected every year at national and European level. [...]*

The Erasmus+ Project Results Platform can be consulted at: <http://ec.europa.eu/programmes/erasmus-plus/projects/>
